

Our Vision

To be the most respected, valued and inspirational network representing the mobile air conditioning and associated industries.

Our Mission

We will at all times act to create and provide the utmost value for our members and the industries in which our membership operates.

We will facilitate training opportunities and encourage and promote the open sharing of information and the continuous development of the VASA network.

We will champion the highest standards of ethics, workmanship and professional conduct.

We will ensure the persistent and dedicated representation of our membership.

We will positively support economically sustainable and responsible environmental protection initiatives which seek to reduce our industry's environmental impact while ensuring a safe operating environment for our members and the public.

We will be relevant, adaptable and accountable.
